---

## PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 3+ years of experience building scalable web applications using PHP (Laravel, CodeIgniter), MySQL, and Python. Experienced in designing REST APIs, developing admin panels, optimizing backend performance, and modernizing legacy systems. Strong collaborator with experience across SaaS, ERP, CRM, and eCommerce products.

---

## TECHNICAL SKILLS

- **Languages:** PHP, Python, JavaScript, SQL
  - **Frameworks / Platforms:** Laravel, CodeIgniter 3/4
  - **Databases:** MySQL, MongoDB (basic)
  - **Frontend / Web:** HTML5, CSS3, Bootstrap, Tailwind, JavaScript, jQuery, AJAX
  - **Tools & DevOps:** Git, Composer, npm, VS Code, Cursor
  - **Other:** RESTful APIs, Cron Jobs, Authentication (JWT), Payment Gateway Integration
- 

## PROFESSIONAL EXPERIENCE

### Zolute Technology & Consulting — PHP / Python Developer

Nov 2024 – Oct 2025 | Remote

- Worked on CRM, ERP, and automation platforms; implemented end-to-end backend modules.
- Built RESTful APIs, admin dashboards, roles & permissions, audit trails, and analytics.
- Developed Python utilities for server automation and file processing.
- Optimized SQL queries and improved application responsiveness through caching and indexing.

### Xampp India Software Pvt. Ltd., Indore — PHP Developer

Jul 2024 – Nov 2024 | Hybrid

- Developed HRM and ERP modules (attendance, tasks, reporting).
- Enhanced UI components and refactored legacy code for stability and maintainability.

## **NXG Infosystem Pvt. Ltd., Indore — PHP Developer**

**Mar 2024 – Jul 2024 | Onsite**

- Resolved production issues and optimized heavy SQL queries.
- Improved backend workflows for the Loan Officer Support (LOS) system.

## **TechSimba Software Pvt. Ltd., Indore — PHP Developer**

**Mar 2023 – Mar 2024 | Hybrid**

- Migrated “One 2 One Scheduler” from Core PHP to CodeIgniter 4 and re-engineered scheduling logic.
- Enhanced workflow management and system performance.

---

### **MAJOR PROJECTS**

#### **MTG Travel Booking System (Laravel)**

**Technologies:** Laravel, MySQL, Redis, REST APIs, JavaScript, jQuery, Blade, Bootstrap **Summary:** Built admin panel, role-based access, booking workflows, travel request APIs, provider management, internal chat, dashboards, and audit trails. Implemented approval workflows allowing admins and agents to create, forward, approve, or reject booking requests.

#### **CRM SaaS (CodeIgniter 3)**

**Technologies:** CodeIgniter 3, MySQL, jQuery, AJAX, CSV/XLSX Imports **Summary:** Enhanced super-admin and tenant panels for package management, invoicing, subscription handling, reports, tasks, leads, support, and customizable settings (roles, permissions, themes, email templates).

#### **Q8 Basket — eCommerce (Laravel)**

**Technologies:** Laravel, MySQL, Blade, jQuery **Summary:** Developed product/catalog modules, cart & checkout flows, coupon & discount systems, order processing, delivery tracking, and user account management.

#### **ERP System (CodeIgniter 3)**

**Technologies:** CodeIgniter 3, MySQL, AJAX, Cron Jobs **Summary:** Built and maintained task management, employee workflows, approval systems, reporting tools, and performance optimizations.

#### **Share Market Web Portal (InfiWealth & InfiAlgo)**

**Technologies:** CodeIgniter 3, MySQL, jQuery, AJAX, Bootstrap, HTML/CSS **Summary:** Converted InfiWealth to a modern responsive theme with dynamic data widgets and charts. Developed InfiAlgo frontend pages and connected dynamic forms (customer/contact forms) to backend logic.
